LOTS! LOTS!

—For SALE.—

Esquimalt Road and Cadboro Bay Road—Fort St. Extension.

Good Water. Excellent Drainage. No Dust. Electric Light. Electric Tramway.

ESQUIMALT ROAD.—We have for disposal a number of most eligible building sites on this well known property, which is situated on the south side of the Esquimalt Road; a great advantage in the Summer season, owing to the absence of dust. The property being near the sheltered cove of West Bay enables residents to avail themselves of the pleasures pertaining to a seaside resort.

CADBORO BAY ROAD (Fort Street Extension) Adjoining the private property of R. W. Pearse, Esq., and commanding a magnificent view of Mount Baker, San Juan Island and the Straits of Fuca; having city water and being on the principal line of the Electric Tramway will enable residents to combine the advantages of country with city life and its conveniences. This exceptionally desirable property has been under cultivation for some years but is now laid down to grass. The soil is unsurpassed for garden purposes.

Terms, one-third cash, balance 6 and 12 mos., at 7 per cent.

Or —Ten (10) per cent. discount for cash.

Special inducements offered to purchasers engaging to build.

LOWENBERG, - HARRIS - & - CO.

PERSONAL.

Items Telling of the Movements of Well Known Persons.

Professor Fenwick is at Roccabella.

Capt. Wm. Power, of Moodyville, is in the city.

Mrs. B Levy went south to-day to visit relations in Napa, California.

Mrs. Edward Allen has returned home.

Mayor Oppenheimer, of Vancouver, is in the city.

Mrs. E. E. Blackwood returned from Tacoma yesterday.

Sheriff McMillan was out yesterday for the first time in several weeks.

Robert Wingate, a wealthy resident of Tacoma, arrived in the city last evening.

J. R. Gordon, Esq., agent for the Bradstreet Mercantile Agency, is at Roccabella.

G. B. Martin, M. P. P., has returned after the Easter holidays to complete the labors of the session.

Dr. Whetham and F. Sagamura, Japanese consul at Vancouver, came over on the Islander last night.

Miss Gertrude Withrow and Miss Rose Ellis returned last evening from a week's visit to New Westminster.

Walter Langley, J. P., his wife and family are expected here to-night and will remain a couple of months.

Mrs. Trotter Johnston and family, who have been in Victoria all winter, have removed to their home at Cowichan.

Montague L. Troup who has been here for a few months has returned to his ranch at Tranquille, near Kamloops.

Mrs. J. W. McKay and daughter have returned from a lengthened visit to Saturna Island, and are staying with friends here.

Jonathan Miller, postmaster of Vancouver, was a passenger to 'Frisco to-day by the City of Pueblo, on his way east for a two months holiday.

Conductors J. Trodden, Geo. Risteen and H. McDonald, of the Pacific division of the C.P.R., arrived down on the Islander last night to take in the Victoria elephant.

Ald. McLeod, of Vancouver, is in the city. The "captain" is one of the principal owners of the large gravel claim which was leased on Saycosh Creek last year. He reports the 600 foot tunnel to be progressing well and the best of prospects for the success of the mine when it is got working next summer.

SPORTS AND PASTIMES.

A Resume of Events in the Sporting Arena.

In the Island vs. Mainland football match, the former club was victorious, scoring one to nothing in the play, although the mainlanders made a game battle. The Island team has thus retrieved its laurels, which were somewhat tarnished by the first game of the season. In the evening, after the play was over, the contestants met in the Clarence hotel and the visitors were feasted by the Island boys in first class style. The Mainlanders were most favorably impressed with their reception here. The announcement of the result of the game, which ought to have been made yesterday, was unintentionally overlooked by the sporting editor, who had not, up to the time of going to press, recovered from the effects of the match and dinner combined.

Duke of Connaught.

Mayor Oppenheimer has received a cablegram from the Duke of Connaught's private secretary that H. R. H. and party will be unable to stop over at Vancouver. The party will land at Esquimalt and it is expected will remain in Victoria for several days.

Wharf Leased.

The report that Turner, Beeton & Co. had sold their Yates street wharf to the C. P. N. Co. is not so. The C. P. N. Co. has effected a lease of the wharf in question for a period of five years and now commands the best wharfage facilities in the harbor.

Not the "C" Battery.

Have had several calls for electric batteries of late, which owing to delay in transit of my new stock, I was unable to fill. Am pleased to say the new consignment has arrived at last. For rheumatism, nervous diseases, lack of vitality, etc., electrical treatment is unrivaled. The Climax battery is of simple construction, with ample directions as to its use, and once tried no family is without it. For sale by E. C. Kellogg, Yates & Douglas streets.

Boat Recovered.

Torpedo boat No 2, in charge of Lieut. Hammond, went over to Port Angeles yesterday to get the boat stolen from the naval hospital by deserters from the Amphion. Capt. Sheppard of the city police was an invited guest on the trip. The run over was a very pleasant one, being made in one hour and thirty-five minutes; the return was made in the same time, the engines running easily. The stolen boat was recovered, but the deserting men had made themselves scarce.

The best offer of Victoria property yet made, either for building purposes or speculation. Sale of lots in new subdivision Burnside Road commences Monday, 31st March, at office of Bourchier, Croft & Mallette.

Y. P. L. A. Closing Social.

The "wretched reporter," seeking to vary the monotony of his existence, made it a point to be present last night at the closing social of the Y. P. L. A. of the First Presbyterian Church, and needless to say that he was most agreeably surprised at the excellence of the entertainment. With the exception of two excellent readings, "The Railway Matinee," by Miss McGregor, and the "Little Vulgar Boy," by Mr. Landells, the programme was wholly musical. The quartette, "Come Away, Come Away," by Messrs. Firth, Grant, Kinnaird and Moir, was executed with a skill that would have done credit to professionals. "Over the Deep," by Mr. J. G. Brown, was well rendered. Mr. Brown possesses a most flexible voice, he being able to sing bass, baritone, or soprano with equal ease. "Land Ahoy," by Messrs. Kinnaird and Moir, and "Beautiful Moonlight," by Miss Campbell and Mr. Grant, were given with an excellence varying on the artistic. "Master and Pupil," by Miss O'Neil and Mr. Kinnaird, was the feature of the evening, unless we except "Old King Cole," by Messrs. Firth, Grant, Kinnaird and Moir. A selected song by Miss Humber was also excellent. Miss Humber sings well. The Ole Bull of the entertainment was Mr. Nash, whose artistic emulation of his great Swedish prototype was well received. Between the first and second parts of the programme refreshments were served, and without disparagement to the cake, that, perhaps, was what made the reporter dream badly while trying to reap the advantage of "nature's sweet restorer." The entertainment was cheap at fifty cents. The First Presbyterian church has some singers who need not take a back seat for anybody.

Fortnightly Drill

The regular fortnightly drill of the fire department was held last evening. Everything worked well, and the apparatus was handled quickly and skilfully by the firemen.

TO-DAY'S DISPATCHES.

A Chicago Pork Packer Talks Plainly Against Tariff Changes.

The Executioner's Wednesday—The U. S. S. Charleston Ready for Sea.

Chicago, April 9.—A special to the *Herald* says: Chicago people who sell lard are furious because of the latest move of the Canadian parliament in the way of a protective tariff on lard, its product and the package in which it is shipped. Mr. W. S. Jencks, of the firm of N. K. Fairbank & Co., explained the situation: "It is simply a scheme to corner the provincial market for the benefit of Ontario packers. Parliament slapped on the increased duties in a sneaking way, and the first thing we knew of it was that it had gone into effect. Some of our goods were on the way to Canada at the time. We were not notified in any way, though we thought we would hear of it in some manner. The new bill became law on March 26th, and went into effect at once. By the new law packages are so taxed that the duty on tierces, for instance, not taking into consideration the lard in it, amounts to more than we pay for the tierces originally here. That's a fine step towards reciprocity isn't it? We have furnished Canada with lard because she isn't a producer of lard. Canadian lard is vile stuff, anyway, and not fit for any purpose."

DISASTERS ON BOARD.

San Francisco, April 9.—The British ship Dawpool, just arrived from Calcutta, reports that on January 23rd she experienced a heavy hurricane from the southeast, lasting two days, with a very heavy sea running. John Jones, a seaman, had one of his legs broken by a heavy sea coming aboard and throwing him on a spar on the main deck. Again, yesterday morning, it was blowing from the north and a heavy sea running and while furling foretop gallant sail, J. Leahy, a seaman, fell from the yard on to the deck. The fall was about 70 feet. Leahy broke one of his legs.

PROBABLY UNTRUE.

Washington, April 9.—Very little stock is taken here in the stories telegraphed from Southern California to the effect that armed bodies of men are collecting along the borders to invade the peninsula of Lower California with a view of filibustering on Mexican territory. It is believed here that the stories have grown out of the fact that armed patrolmen are stationed along the border line to prevent the smuggling of Chinese across the line.

THE CHARLESTON.

Vallejo, Cala., April 9.—The cruiser Charleston will leave this afternoon and anchor off San Francisco during the night, and to-morrow morning will proceed on a trial trip to Monterey, where her guns will be tested.

FAMILY FEUD.

Omaha, April 9.—Geo. Nicholson yesterday threatened his son-in-law, John Barbank, with an axe, and afterwards chased his daughter with a pitchfork, but she escaped. Nicholson was arrested, but released on bail. Last night he met his daughter on the street and the quarrel was renewed. Mrs. Burbank drew a revolver and shot her father in the leg and thigh, and as he fell attempted to blow her brains out, but was disarmed. She is under arrest.

COMPENSATION.

Washington, April 9.—The Senate today passed the bill appropriating money to reimburse members of the House who suffered from the Silcott defalcation.

PUGILISTIC.

Chicago, April 9.—The long expected fight between Abe Coughlin and Jas. Dononey, both of Chicago, for $500 a side and 5 per cent of the gate receipts and championship of Illinois, came off this morning at Sebethyville, Ind., and was declared a draw in the 53rd round after a stubborn contest lasting four hours.

LUMBER DEALERS IN COUNCIL.

San Francisco, April 9.—A general convention of retail lumber dealers throughout the state opened at the Chamber of Commerce to-day to form an association, the object of which is for the mutual protection of those in the trade and to enforce the principle that wholesale and retail branches of the business are separate and distinct branches of trade, and to resist the "pernicious" policy of the manufacturers, wholesale dealers, or their agents in an effort to rob the retail dealer of his legitimate trade, and uniting retail dealers in the state in one organization for the purpose of successfully engaging all efforts of wholesale men to trench upon their rights. No effort to effect a trust or advance of prices is contemplated by the convention.

THE BOOER.

Easton, Pa., April 9.—Wm. Bartholomew was hanged here this morning for the murder of Aaron W. Dilleard. The drop fell at 6.30 o'clock. He died declaring his innocence and damning all his accusers and demanding Detective Johnson and his paramour, Mrs. Dilleard, be hung. About 1000 people were present. Bartholomew murdered Aaron W. Dilleard on September 6th, 1889, after he led his wife astray.

Bellafont, April 9.—Alfred Andrews was hanged here to day for killing Clara Price. The drop fell at 11.08. Andrews murdered Miss Price, aged 16, after an outrage of fiendish cruelty on Nov. 21, 1888, and confessed.

Waynesburg, Pa., April 9.—Zac Taylor was hanged here to day at 11.02 for murdering Wm. McCausland, a stock dealer of Allegany City, Sept. 10th, 1889. He died declaring his innocence and was cool and collected.

Ellensburg, April 9.—Chas. Carter, the murderer of John Matthews, was hanged in the county jail at 9 o'clock this morning. Carter met his death calmly walking to the scaffold with a firm step.

The sale of the very cheap property in the Work Estate has begun. Come early to secure a well located building lot for $275.

Art Notice.

I desire to draw the attention of the public to the beautiful Crayon Portrait of His Worship Mayor Grant, on exhibition in the window of Leask & Morrison, at 55 Government street, one of the finest specimens of art ever exhibited in Victoria; executed by Charles Petersen, the celebrated artist of Auburn, New York, a graduate of Copenhagen, Denmark, with the highest honors. As an oil painter he stands unrivaled, and will guarantee a true portrait from every small picture sent him to paint from, equal in merit to any painted from life. Oil painting a specialty. Represented by G. W. Bigger, general agent for the Pacific Coast.

A Savage Dog.

An aged and decrepit Klootchman came to the police station this morning and poured into Supt. Sheppard's ear a tale of woe of how she had been bitten by a savage dog. The superintendent sent a constable with the woman to look up the animal, and the owner will probably pay for the damage committed by the brute.

HOUSE OF ASSEMBLY.

A Member of a Committee Refused Information.

WEDNESDAY, April 9.

Mr. Speaker took the chair at 2 p. m. Prayer by the Rev. Dr. Reid.

TIMBER MARKING.

Mr. Haslam moved the second reading of the Timber Marking bill. Bill read a second time.

PRIVILEGE.

Mr. Orr said that some time ago a committee was appointed to enquire into the construction of the North Arm bridges. The member for New Westminster city was appointed chairman of the committee. He (Mr. Orr) had frequently asked him to call the committee together to report. A meeting had been called for this morning, but when he (Mr. Orr) arrived, the chairman was not present. While waiting for the chairman, he asked the member for Cowichan, who was secretary of the committee to allow him (Mr. Orr) to see minutes for the purpose of refreshing his memory and was refused. He wished to have Mr. Speaker's ruling on the matter.

Mr. Speaker said all members of the committee were equal. Certainly all documents and papers were the property of a committee and to which all members of the committee should have access. There might be cases, of course, where, in the absence of the chairman, it would be well for the secretary not to let evidence or documents go out of his hands.

Mr. Croft said the bridge committee and the school committee were in the same book. Mr. Orr had no right to see the school committee evidence, and in case the evidence or documents were lost before the committee reported, who would be responsible?

Mr. Speaker—The secretary, certainly, but that need not prevent him from allowing other members of committees from examining them.

Hon. Mr. Beaven supported the Speaker's ruling. It was seldom that all the members of a committee could be got together, and not to allow any of them access to the minutes at all reasonable time was to place them at a great disadvantage.

Hon. Mr. Robson said the minutes were in the custody of the secretary and he could not be expected to let them go out of his hands.

After considerable discussion Mr. Speaker repeated his ruling that all minutes and documents of the committee were open to all members of the committee within the precincts of the committee room, but from what he knew of the courtesy of the honorable member for Cowichan he was sure a misunderstanding had taken place.

THE SCHOOL BOARD.

Regular Monthly Meeting of the Educational Guardians.

The whole school board was present at the meeting last evening, Trustee Hayward in the chair. Routine business being complete the secretary read the following

COMMUNICATIONS:

From W. J. Dowler, C.M.C., in re the opening out of a street in the school reserve.—Filed.

From several of the teachers giving notice of the usual three days leave of absence.—Filed.

From J. Kaye and other teachers, explaining satisfactorily the reasons of frequent cases of tardiness among the scholars of their department.—Filed.

From J. Goodykoontz, applying for position as principal of schools.—Filed, and writer to be informed there are no vacancies.

From H. Gawart, making the same request, which was dealt with in the same manner.

ACCOUNTS.

For the month of March, amounting to $77.75 were passed for payment.

ATTENDANCE.

The monthly reports showed an average daily attendance of 1172.38. Total number of scholars, 1276, or the greatest number ever reached yet. Average per teacher, 45.11. The report also showed a large increase from last month. The reports were received and entered on the minutes.

STAR CHAMBERISM.

The board then on motion of the secretary, seconded by Trustee Erskine, went into committee of the whole to consider a complaint against one of the teachers, and the representatives of the press were ignominiously excluded. Considering that both reporters have been fully cognizant of the facts of the case leading up to the subject dealt with so secretly by the board, their exclusion from the enquiry seems a farce.

Victoria Truck & Dray Co.

This company has been re organized and new life instilled into it by taking Messrs. T. Ladner and J. Bryce into the directorate. It is conceded that the new members of the company are a valuable acquisition. The company now has a valuable list of horses and vehicles on hand.

Y. M. C. A.

To-night the fifth of the series of "Practical Talks" will be given in the large hall of the Young Men's Christian Association, by A. M. Muir, Esq., who has taken for his subject "How Buildings Are Made. It will be illustrated with models, photographs, drawings, etc., and a very interesting evening is anticipated. All who can attend will be very cordially welcomed.

An Excellent Move.

Petitions in circulation, are being numerously signed for the opening of Bird Cage Walk to Carr street. The men who laid out our streets when the first surveys were made, have a great deal to answer for, and one of their worst blunders was in failing to continue the main thoroughfare through the city to the ocean beach at Dallas Road. Beacon Hill Park, the pride of Victoria, can only be reached by circuitous routes, or through narrow or crooked streets, from the center of the city. To remedy this, it is proposed to continue Bird Cage Walk to the sea, and for this purpose it will be necessary to pass through a small stretch of private property and to widen Carr street. We understand most of the property owners affected will donate the land required and many will contribute liberally in cash besides. Now that the council has expended $75,000 in beautifying the park, a better and more direct drive is wanted to reach it. The tramway company will be extending its line this summer, and the directors, we understand, favor the new street and will lay down the track as soon as it is opened. The longer the proposed improvement is delayed the more expensive will the work become, as the property is continually rising in value.

THE CAPITAL.

Sir John Eulogizes the Late Donald Chisholm—Tariff Protests.

The 'Columbia and Kootenay Railway Bill Passed in Committee.

[Special to Times.]

Ottawa, April 9.—Owing to the vitriolic practices in St. George's Church here which have caused considerable scandal in the country and much trouble among the congregation, Rev. P. Owen Jones has resigned.

When the House met this afternoon, Sir John Macdonald said: "Within a day of the decease of Mr. Perley, we have lost another colleague. Both sides of the House will feel deeply affected by this evidence of human life. Mr. Chisholm was a gentleman of great responsibility, and had earned his position by acquiring the good will of those who knew him on the shores of the Pacific. He came here by the unanimous choice of his constituency, which he represented in New Westminster. Unfortunately, he was not left long to perform his duties. Illness overcame him and at last he succumbed to it. This House feels great sympathy at the loss of another friend. This mention will be fully responded to by my honorable friend opposite." Hon. Mr. Laurier nodded assent, but did not speak.

The House went into committee on the tariff resolutions.

The Columbia & Kootenay railway bill passed the committee to-day.

Ottawa will soon be in the throes of an election to the Dominion Parliament. A. J. Christie, Q. C., has lost no time and is out with his card as a candidate in the Conservative interests. Besides being a Conservative, he says little further than that questions affecting labor, capital and trade are sure to arise in Parliament, and he considers that he would be of some service in the settlement of these, and those acquainted behind the scenes know that Christie's haste is due to the fact that he knows McIntosh is likely to capture the convention as well as secure the support of the government. He follows the example of the late Mr. Perley. Perley went into the convention once with McIntosh, but he came out one or two behind. Next time he (Perley) ignored the machine and McIntosh had to give way or Ottawa would be lost to the government. If Christie and McIntosh run, notwithstanding how strongly Conservative Ottawa is, it will go Liberal. Ex-Mayor McDougall or Patton, late Perley's partner, will be the Liberal candidate. Either would carry a big vote.

Geo. Alexander, of Dublin, Ireland, who is interested in the Calgary district, arrived here from the old country, and while absent negotiated for sufficient capital to float the Calgary Water Works Company, the capital of which is $100,000.

Hon. Alexander MacKenzie and Mrs. MacKenzie spent their Easter holidays in Montreal with Sir Donald A. Smith, the latter having put a C. P. R. private car at their disposal.

At a meeting of the cabinet yesterday it was decided to renew the modus vivendi for one year. This course is adopted in view of the prospect of the resumption of negotiations for a settlement of the Atlantic fisheries dispute.

Hon. Mr. Colby gives notice of a bill to enable sailors to appeal to a higher court from summary judgments in cases of breach of agreement.

Forty Ottawa Valley lumbermen interviewed the government on Tuesday and seized that the duty on mess pork be placed at the old figure. A delegation of the Canadian pork packers association urged the government to retain the new duties, and thirty members of parliament accompanied them.

Crockery.

J. P. Davies & Co., will sell by auction to-morrow twenty crates of crockery. The whole consignment will be disposed of to the highest bidders regardless of cost.

Police Whistles.

The conductors of the street cars have for the past few days been giving signals to the motormen with police whistles. The "toot" of these whistles exactly resembles that of a constable's call for assistance, and several false alarms have been the result of the use of them.

Testing the Fire Alarm.

The contractor for the erection of the fire alarm system will regulate the striking gear on Thursday (to-morrow) morning. The large bell on No. 1 engine house will be struck at 10 o'clock a. m. and at intervals during the morning. Should a fire alarm be turned in the Yates street bell and the large bell will ring a general alarm.

New Police Calls.

Work on the addition to the new police calls is progressing rapidly, and in a few days Supt. Sheppard will be prepared to furnish first-class quarters for transient boarders. The new calls are very much needed, and will be of great benefit to the force and of credit to the city as accommodations for lunatics and females will be possible.

Fine Redwood.

The American schooner Mary E. Ross is discharging 2,000 feet of California redwood at J. Webb's factory, Laurel Point. When this is completed she will unload the remainder, 110,000 feet, for Muirhead & Mann's factory. The cargo is said to be a very fine one of its kind, and it seldom happens that a vessel brings a load of this wood for a British Columbia port.

A New Club.

Twelve young men of this city have banded themselves together under the name of the Philharmonic club and have bought out the St. Joseph's club. The new club is purely one for evening amusement, with billiards, chess, cards, and a piano, to "soothe the savage breast." It will be conducted on liberal lines and has no connection with any church. The management of Philharmonic hall also goes with the transfer. Any young man of good moral character is eligible for membership. The dues are 50 cents per month and a small initiation fee.

The Lots offered this week by Bourchier, Croft & Mallette are in Victoria North, on the Burnside and Saanich roads.

Tale of a Team.

Police Officer Walker seized a trunk on the corner of Fort and Douglas streets this morning about ten o'clock, and getting the help of Officer Redgrave the article was, with much trouble sent to the station. The trunk was heavy when the officers started with it, but by the time they got to the station it appeared to weigh about nine tons. The owner of the article called this morning and claimed his property, stating that the trunk had been placed there while he went for a team for its removal to the steamer, but getting a lift jolly with laughter, he had forgotten about it until the morning.

THE DAILY TIMES

PUBLISHED EVERY EVENING EXCEPTED.

By the Victoria Times Printing and Publishing Company, Ld.,

At the Office of Publication, View Street, near Government, Victoria, B. C.

W. H. TEMPLEMAN, Manager.

HYPNOTISM AND OUR POLITICIANS.

Hypnotism is being reduced to a science, and it would seem a very exact science at that. The other day sixty prominent physicians and dental surgeons conducted some very remarkable hypnotic experiments in Berlin in the case of a girl whose tonsils were removed by an absolutely painless operation while she was in a state of coma. The patient obeyed the slightest suggestion of the hypnotiser. Another patient was hypnotised by letter. "Go to sleep" was the command of the letter, and the patient immediately relapsed into slumber. Dr. BRAMWELL, one of the attendant physicians, hypnotised another patient by a note sent by the hands of his daughter, and still another by a message sent by telegraph. The London Lancet vouches for the truth of these statements.

If ordinary individuals making no pretence to occult powers may acquire the specific influence over others as above set forth, what is to prevent burglars and other varieties of thieves from becoming hypnotists. There is nothing that we can see, and it is morally certain that a hypnotiser of a sinister disposition might do a deal of damage without fear of detection. Imagine a hypnotiser entering a bank, placing the cashier under the spell of his subtle power, and then presenting a bogus check to be cashed! Conceive of the consternation that would be created in a newspaper office in the event of some hypnotic real estate man persuading the managing editor to insert a full page advertisement at about 75 per cent. under the regular rate! Nor need we stop here. Imagine the Colonist, and the Vancouver World under the spell of an opposition hypnotiser, and at his command inditing a brace of anti-"Honest John" editorials. Would there not be much perturbation over at James Bay as the consequence of such a freak? Suppose a lawyer fresh from foreign parts, possessed of the hypnotic power, should make THEO the victim of his malign science, and command that gentleman to offer an amendment repealing the Legal Professions Act? Would it be an exaggeration to say that the court house would be shaken to its foundations with the violence of the maledictions of the legal fraternity? And how THEO would kick himself on recovery from his trance. And, come to think of it, who shall say that the Attorney-General was not hypnotised by Mr. HASLAM when he voted to place an embargo on the employment of the Chinese in coal mines? The Premier, too, it will be remembered, voted quite as unconstitutionally as his colleague in the same matter. Must we not infer that he was under the hypnotic spell? Mr. HASLAM should be investigated, with a view to ascertaining what power he possesses that the government should see their way clear to voting in a direction just opposite from that they did two years ago.

And how about the attitude of the government with respect to guaranteeing of Electric Railway bonds. Shall we conclude that the government are in a normal condition of mind in the event of their guaranteeing the bonds, or shall we assume that they are under the influence of an hypnotiser, who is in the employ of the promoters of these suburban railway enterprises? There there is the Board of Trade. This organization is on record as the authors of a free trade document, and yet later in their careers we have indubitable evidence of their having voted for a generous but independent support of the government. How are we to reconcile their last attitude with their first except on the theory of their having been hypnotised by some scheming Tory? To sum up, considering the shiftiness of the government, together with the inconsistency of the Board of Trade, the inevitable inference is that they have been suffering from some influence, and what can that influence be unless it is hypnotism? Do men in their right senses, do free agents, stultify themselves so emphatically and so frequently as has been the case with some of our politicians and business men? No; and we can only account for it as has been suggested by hypnotism. But, seriously, this hypnotic business is no joke. All those familiar with DUMAS' "Memoirs of a Physician," will remember the power, which was nothing more or less than hypnotic, exercised by the leading character. If hypnotism will do all that is claimed for it and the secret of the art should fall into the hands of unscrupulous persons, the amount of damage that could be done is simply incalculable.

THE BRITISH CONQUEST OF FRESNO.

While it is probably true that British Columbia has the proud distinction of having been the first to undertake artesian well experimenting as a government measure, it remains for the United States to take up the matter two years later and appropriate a sum which augurs well for the speedy consummation of the scheme. Operations will first begin in Dakota and $350,000 has been appropriated that the experiment need not fail for want of thoroughness. And this leads us to allude to the Fresno waterworks in California, which recently have been purchased by an English syndicate. The water supply of this company is derived from eight wells, ranging in depth from 150 to 550 feet, and which yield 5,000,000 gallons daily. The paper from which we glean the information of the purchase of these waterworks sensationally heads the announcement, "British Conquest of Fresno." In this country British conquest would be a subject for congratulation. Canadian papers have deplored the influx of British capital into the States, professing themselves at the same time unable to see why that country should be preferred to Canada. The secret of British preference for the States is, that there is millions in it. The Yankees build breweries and the British buy them; they develop mines and the British buy them; they are now developing artesian wells and the British are buying them. Whenever the Canadians and particularly the British Columbians undertake to develop something, if nothing more than an artesian well, the chances are that they will have an opportunity to sell out to the Britishers. It is perfectly clear to our mind that whenever it shall have been demonstrated that artesian wells are practicable in British Columbia that British capital would gladly undertake to make them general throughout the province, and then, possibly a condition of affairs would be brought about by which we could raise enough flour, mutton, pork and fruit for our own consumption.

PRECIPITATE LEGISLATION.

The precipitate methods employed by the Attorney-General in the House, will one day earn for him the reputation of being the most mischievous legislator who ever occupied a seat on ministerial benches. Yesterday he brought up a harmless looking measure for the purpose of "quieting titles." The bill, a long one, had not been on the members' desks two hours, and yet the Attorney General moved that it be read a second time, and the motion was carried. As to this beneficent measure of the Attorney-General's, it is stated that its primary object is the quieting of Mr. GREER'S title. If this be the case, Mr. GREER'S claim is strengthened in equity, and the government advertise themselves as moral cowards. THE TIMES has always thought that as between the government and Mr. GREER, the justice of their respective contentions was pretty nicely balanced. If, however, the government, in order to gain its point, must adopt the extraordinary method of rushing a bill through the House, the effect of which will be to oust Mr. GREER, there is but one conclusion to draw and that is that the government have been guilty of an usurpation of power, fraught with danger to the commonwealth.

Nor is the case of quieting titles the only instance in which hidden devilry has cropped out. In the bill to enable the donation of land for charitable purposes, a clause was tampered with and only for the vigilance of Mr. BEAVEN would have become law. Such things as these are not mere oversights.

VICTORIA DISTRICT.

TO THE EDITOR OF THE TIMES:

SIR,—It is about a month since some of us have been spending our leisure time over a mathematical, or the 90 per cent. problem. It would be presumptuous on our part to attempt to impugn the well known veracity of the Premier, especially after perusing speeches made by him on two separate occasions on the coal mines, Chinese extinction act; but we have been twining figures into various shapes until we have come to the conclusion that either John Robson possesses a method of calculation peculiar to himself, or that the present government is at a premium in some districts. We would not have questioned the modest tout if Cunningham had simply endorsed it, but we were not sure. The government supporters in this district number about 30 per cent., i. e., voters who pay real estate tax. The slight majority at the late election was made up of irresponsible voters. The road boss was given letters of marque by the powers that be, and this authority we used in a domineering fashion. We are too generous to charge the government with bribing voters in this fair district. There were swarms of men on the roads at that time, where they sprang from no one knew, all receiving $2 per day whether they worked or not. They were boss of the situation. Those who refused to pledge their votes to the government candidate were merely discharged. Now there are not many who object to the government patronage going to the party in power, as far as is consistent, but the money that's spent for public improvement—where the taxes are not confined to the government party—should be shared by all alike.

I see Anderson has another queer freak and has gone floundering into the horse business. I suppose there is an affinity between wide tires and horses, but it has to go on the estimates to swell them up. Some of the farmers are beginning to look up past records. They think they may come in for a share of such as these. If our M. P. P. had only substituted the mule he could have left a name famous for grand ideas. The mule has some fine points. He can rustle for a living, eats paper, hard tack, and at a pinch he could manage a while on cordwood—just the thing for this country, when hay and oats are played out—like the beauty of the deliberation would come in. The government could come to the rescue of the farmer by utilising the waste basket.

I hear Tolmie has been experimenting. The tests have proved quite satisfactory. This is the result: One sip places the lobes in a state of equilibrium. Loquacity is the effects of two sips. The leader will no longer wonder at the chipping in so frequently by our members of late, but Mr. Tolmie has not been obtrusive. Much like an apprentice he has been looking up small things in a small way. Three sips inspires the partaker with imaginations poetical. This may be infectious, therefore, Colonel Baker's poetic effusion. The rythm appears crooked enough to coil around a gate post, and some of its winding savors somewhat of the thrasher brand. A member for Cariboo, who weighs twenty eleven—but Colonel Baker's memory failed him at the last verse, and he murdered the whole thing. I happened to have it by me, the negro ditty and will present it for his benefit:

The Right Honorable Shakes,
Uttered another lie at the door;
Didn't he'd come next summer
With twenty-nine more.

—FARMER.

$275 is very cheap for a lot in any part of the city, on the street car line. Look at those offered by Bourchier, Croft & Mallerie on Burnside Road.

Do You Want a Building Site Near the City?

T. G. Rayner has a few lots on the Fernwood Estate. Call early. They are selling very rapidly and prices will advance as this is the most popular place to the market for investment.

DECORATION DAY.

Thousands of Visitors and Organizations Honor the Dead.

New Orleans, April 7.—Confederate decoration day attracted thousands of visitors to the cemeteries. The Ladies Confederate Monumental association, confederate veteran organizations, Sons of Veterans and citizen soldiery in uniforms participated. The Grand Army of the Republic did not take part in a body as no invitation was issued, owing to a division existing in that organization, but many union veterans participated individually and at offerings. The confederate army of Tennessee and the army of Northern Virginia monuments were beautifully decorated. Outside of the other decorations at the army of northern Virginia's tomb, where the body of Jefferson Davis is interred, the confederate veterans placed a magnificent presidential chair of yellow immortelles inscribed, "To Our Chief," in front of the resting place of the distinguished dead.

Captain Thomas Sibbald, R. N.

The late Thomas Sibbald, commander R. N., who died in his 80th year at his residence, Eildon Hall, Sutton West, on the 14th instant, was born in 1810 at Scarboro', England, where his father, Col. Sibbald, then commanded H.M. 15th Regiment of Foot. He entered the service 65 years ago, and the following is his record in the navy list: In 1832, as mate of the Beacon, he served in her boats at capture of 142 Greek pirates. In 1841, while on the China station, he was landed in charge of a field piece and party at capture of Chuenpee, and was in command of the rocket boat at the taking of the Bogue forts, receiving medal and promotion to lieutenancy. Captain Sibbald came to Canada with his wife and family in 1856, and ever afterwards resided at his beautiful estate on the shore of Lake Simcoe, where in conjunction with his brothers he erected a handsome stone church in memory of his mother, which was consecrated by the Bishop of Toronto in 1877. He was a magistrate for the county of York, Ont., and previous to his leaving England he was a deputy-lieutenant for the county of Cornwall. Of his two sons the elder succeeds to the landed property; the younger is staff-surgeon of H. M. S. Canada on the North American station.—*Empire*, Toronto, March 21, 1890. Captain Sibbald's daughter, Mrs. J. Roland Hett, is a resident of this city. His son was some years ago at Esquimalt on board H.M.S. Shah.

Never Here Before.

Some of the most unique designs in spring cloths, for gentlemen's wear. New line of spring suitings, disclayed for first time in Victoria by Campbell & Higgins, the fashionable Government street Tailors.

Direct Purifier of the Blood,

and other fluids of the body.

No one need hesitate in giving them a fair trial, for they contain no Mercury or any other mineral.

Many persons have found these Pills of great service both in preventing and relieving Sea-sickness, and to Travellers they are invaluable.

Testimonial.

"The Druggists' Marine, Lagos, W. C. A. March 5 1888

To MESSRS. WHELPTON & SON. Dear Sirs,—Since we have introduced your Vitalizing and Purifying Pills in our store, we have lost 30 per cent. in the sale of other pills. Your Pills are a favorite article on the Coast. They are generally known and commonly called by the natives, "The Oval Box Pills." They are really worth the service of a medical man; in short to be without them in the store will be considered a great calamity. Please give your immediate attention to our Indent for the quantity prepaid. T. A. KING & CO., Agent for the West Coast of Africa.

ILLUMINATE

The Electric Light is, without doubt, destined to be

The Light of the Immediate Future.

It has proven itself more safe, convenient, cleanly and healthful than any other illuminants.

No ignition from match stumps. No oils to explode.

No gas-pipes to blow up. No soiling of goods.

No asphyxiation.

No vitiation of the air of offices or homes. It is strongly suggestive of concerted sunlight.

The secret of success in Electric Lighting centres in the cost pile.

A dollar saved is fact, is a dollar earned in dividends.

THE BELL ELECTRIC LIGHT AND MANUFACTURING CO.

of Toronto claim, for their system the ability to produce more light per horse-power of energy expended, than can be produced by any other system known. They guarantee their machinery to outlast other makes, while they are able to sell it at fully considered less. They supply "arc" and "incandescent" apparatus, or both combined, in any sizes and quantity.

Long life lamps Incandescent Lighting a specialty. Isolated plants for factories, mills, and country stores, furnished and set up.

Their 1000-candle power are lamps a great success.

Prices and all information on application to their general western representative.

HOUSE OF ASSEMBLY.

Legislators Resume Legislation After the Easter Holidays.

Debate on the Timber Marking Act and Other Measures.

20-Mile Belt.

TUESDAY, April 8th.

PRAYERS SAID BY

The Hon. Mr. Turner moved on the further consideration of the report on Bill No. 3, intituled "An Act to amend the Municipal Act, 1889," to insert the following as a new clause:

"The council of the corporation of the city of Victoria may pass by-laws for entering upon, taking and acquiring so much land in the city of Victoria as may be required for the purposes of a drill shed site, without the consent of the owners of such land, making due compensation therefor to the parties entitled thereto, under the provisions of the sections in the Municipal Act, 1889, relating to the 'compensation for lands taken.'"

The mover explained that a site was available in the city of Victoria for a drill shed which could not be taken advantage of because a title could not be given. This would obviate the difficulty.

Mr. Cunningham would always oppose special legislation of this kind.

Hon. Mr. Beaven—If the principle were sound the honorable gentleman would be willing to place a general provision of this kind in the Municipality Act. The fact that he will not make it general shows that it is wrong. To place the power in the hand of the city to go upon and take possession of property, property for instance which had been left to children who had not come of age, would be an arbitrary, unjust and ridiculous proceeding.

Mr. Orr said that if this power we will find every city in the province coming to the House for the same power.

The leader of the government spoke strongly against the amendment. He said legislation of this kind which might deprive a man of that most cherished of all property—the homestead—should not find a place anywhere but in Russia.

Col. Baker considered that public safety required the drill shed.

Messrs. Grant and Haslam spoke in favor of the amendment. Mr. Smith against it.

On division the amendment was lost 15 to 6.

QUIETING TITLES TO REAL ESTATE.

The Attorney-General proposed to move the second reading of a bill entitled "An Act for Quieting Titles to Real Estate."

Hon. Mr. Beaven said the bill had just been laid before the House. Surely the House was not to be asked to accept a bill respecting titles to real estate without reading it.

The Attorney-General said if the bill was not read a second time to-day it would have to go down to the bottom of the notice paper and that would keep it back.

Considerable discussion took place, the attorney-general evidently holding for the second reading of the bill now, the leader of the opposition protesting against the attempt to rush such important legislation through the second reading without giving members time to read the measure. He had long ago found that it was useless to look to the attorney general for gentlemanly conduct and as he (the attorney-general) would yield nothing, on the grounds of justice, all he (Mr. E.) could say was that he would not vote for the bill or against it, for the reason that it was 34 sections in length and he did not know what it contained.

Bill read a second time.

MAGISTRATE'S BILL.

The attorney general moved the second reading of the Magistrates' Bill which he explained was to relieve the city magistrates of Victoria, Westminster and Vancouver of making the same returns to the government as the magistrates of rural districts, inasmuch as they do not handle the cash, which they are asked to account for. Bill read a second time.

TELEPHONE BILL.

The Nanaimo Telephone Bill was read a third time and passed.

LAND GRANTS.

On moving to adopt the report on A Bill Granting Lands For Charitable Purposes, objection was raised to changes in the bill made by the law clerk in incorporating certain amendments which were passed in committee.

Mr. Speaker ruled that the bill was not in the form in which it passed through committee and was therefore out of order. It would be a dangerous precedent to establish that changes could be made by an officer of the House, even although the changes were made with the best intentions. The standing rules and orders were accordingly suspended, the bill recommitted, the action changed and the bill passed through the final stages.

FIREARMS.

A bill entitled "An act to prevent minors carrying firearms," was read a third time and passed.

GAME LAW.

Mr. Ladner moved the second reading of the Game bill (the provisions have been already published in the TIMES). Bill read a second time and considered in committee.

RAILWAYS.

A bill respecting the granting of lands in aid of railways was brought in by message of the Lieut.-Governor.

House adjourned at 5:45 till 2 p. m. on Wednesday.

QUESTION.

Mr. Ladner—To ask the Chief Commissioner of Lands and Works: Has the road leading from the North Arm bridge northerly to the Granville street bridge, Vancouver City, been gazetted as a public highway? If not is it the intention of the government to gazette the same at once?

AMERICAN RECIPROCITY.

Blaine Proposes to Build an American Protective Wall.

Washington, April 8.—There has been a great deal of rumor in connection with the tariff schedule and Secretary Blaine's endeavor to establish reciprocity with the South and Central American countries. Secretary Blaine has submitted to the majority of the members of the ways and means committee a proposition relative to the South American imports as follows:

The president shall by a proclamation declare all ports in the United States free for the products of any independent nation of the American hemisphere upon which import duties are now levied so long as such nations admit free of duties all breadstuff, provisions, preserved fruits, in fact all articles of food, lumber, refined petroleum and such other products peculiar to the United States as may be agreed upon, provided, however, that this concession shall apply only to merchandise transported in vessels of the United States or other countries entering into the agreement.

This may not be the exact language of the proposition, but it contains all the material facts of the plan.

Secretary Blaine proposes to build a protection wall along the coast line of the American, for the mutual benefit of both sections, and at the same time strengthen the American merchant marine by prohibiting the carrying of goods to be admitted free in anything but American vessels.

Fence Posts.

MORNING TELEGRAMS.

General News Condensed Into Short Space.

Three men were killed in the copper mine at Sudbury on Friday afternoon, the wire drawing portion of which up the inclined plane snapping; the car went down at a terrific force and mangled three men fearfully.

On Monday night two young ladies, Miss Etta Snare, aged 17, and Miss Ercs Hoffman, aged 15, were crossing the river in a small boat, accompanied by a young man named Charles Hart, when the boat was swamped and the ladies drowned. Hart being unable to save them, owing to the swift current.

At the annual meeting of the Canadian Manufacturers Association held in Toronto on Tuesday, a resolution endorsing and extolling the national policy was carried unanimously.

The announcement that a large bequest has been made to McGill university by W. C. McDonald is more than confirmed, and the amount will reach half a million dollars. The announcement is now formally made of a $200,000 endowment and of some $350,000 in building by McDonald, who is already a large benefactor of the university.

Fire broke out in Montreal in the building occupied by the Dominion Blanket Co.; Geo. Barry, dealer in hides; and J. R. Sheerer, manufacturers' agent. Damage was also done to the wool goods of John Ewen & Sons, amounting in all to $250,000.

The death is announced of Hugh Hartshorne, the oldest barrister in Nova Scotia. He was admitted to the bar in 1824.

The Toronto *Globe's* Washington dispatch says: Secretary Blaine is reported to be very much put out over the alleged action of the Canadian government in objecting to some of the features of the convention negotiated between Sir Julien Pauncefote with Hon. Charles Tupper on the one hand and Blaine himself on the other, having for its object the settlement of the Behring Sea controversy. Secretary Blaine has heretofore, up to the present time, considered the matter closed, but now, it is said, he has come to the conclusion the subject will have to be re-opened, and it is expected another conference will be perfected within a few days whereby the difficulties between the two governments may be settled.

The house of George McIntyre, a miller, of Downie's Rapids, Ont., was badly shattered by dynamite on Tuesday night. It was fired by some unknown scoundrels who was seen to fly from the vicinity. McIntyre, his wife and seven children were all injured.

Two thousand men engaged in building trades, Toronto, are now out on strike, and the agitation threatens to spread to other workmen.

It is reported upon good authority that Clifford Sifton, M.P.P., will be sworn in as Attorney-General of Manitoba today.

A dispatch received announces the death of A. C. Verner, a former resident of Sandwich. Deceased was for four years mayor of Sandwich and was one of the pioneers of the country.

A disastrous conflagration took place to-day at St. Monique near Montreal. A fine new church and adjoining presbytery were completely destroyed and the loss is estimated at $30,000.

Five thousand bushels of two rowed barley for distribution among the farmers of the Dominion has arrived in Montreal.

The priests of Toronto have presented His Grace Archbishop Walsh, with a team of bay horses, worth six hundred dollars.

A representative of an English syndicate is in Montreal wanting to buy up the lithographic establishment of the city.

Lots on Burnside Road Only about one-half the distance, as to Cadboro Bay, location just as desirable, and price $275 per lot.

Coal News.

Coal at Vancouver has been raised to $9 per ton while in Victoria it remains at the same old price. The Central Coal Yard and the Rock Bay Coal Yard have been merged into one and hereafter will be carried on under the name of the Central Coal Yard. Orders to be left at 90½ Government street.

PRICE BAKING POWDER CO.

NEW YORK, CHICAGO, ST. LOUIS, SAN FRANCISCO.

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced Cough Cure. If you have not tried the Balsam, call for a 25-cent bottle to test it.

PROVINCIAL PARAGRAPHS.

News of the City and the Province Briefly Told.

—The great Clarity Ball this evening.

—Microbe Killer on sale at Daley's 111 Government street.

—Novelties in ties, see our windows. Gilmore & McCandless.

—The board of aldermen hold their regular weekly meeting to-night.

—Largest variety of boys' clothing in Victoria. Gilmore & McCandless.

—Suits to order, large range of patterns, $25. Gilmore & McCandless.

—Work on the site of the new flour mills is being prosecuted with vigor.

—Baby carriages of latest styles just received by John Wooler, 51 to 55 Fort street.

—The non-commissioned officers' dance at Harmony Hall last evening was much enjoyed.

—A $9000 wharf is to be built at Port Crescent, the new boom town just across the straits.

—"Sinorurita Walton," the most popular of all wall decorations at John Wooler's, 51 to 55 Fort street.

—Two beautiful live peacocks arrived from the east last night and other fancy birds, for W. Ferguson.

—Stealers of flowers from the graves in the cemetery are becoming very bold in their ghoulish actions.

—You should secure a lot in Fernwood. Beautiful residential property. Enquire of the leading estate agents.

—A public meeting has been held in New Westminster to discuss the provisions of a lien law for the province.

—Shaving outfits, pocket and table cutlery, scissors, etc., in large variety at M. & H. Fox, 78 Government street.

Just the chance for workingmen who wish to build. Very cheap lots convenient to centre of city on Burnside Road. Bourchier, Croft & Mallette.

—Take your spring suits to John T. Pierre to be cleaned and repaired. He makes it a specialty. 96 Yates street.

—Diver Harman is engaged at Esquimalt recovering fire bricks and other stuff recently sunk by a scow upsetting.

—The Texada mining company have decided to sink a shaft on their present claim for the purpose of testing the material.

—An order for seven bugles has been cabled to Europe for the Amphion's use as 11 are wanted here for the Queen's birthday.

—Fresh Oysters delivered to all parts of the city. New England Bakery, Young Bros., Government street, Telephone Call, No. 161.

—Chicken or garden fencing, made of laths woven in wire, at eighteen cents per yard at McLennan & McFeely's, 70 Yates street.

—Repairs to the steamer Gladys are about completed and it is expected she will resume her berth on the Fraser route about Friday next.

—J. C. Smith, chimney sweep, 34 Collinson street opposite St. Joseph's Hospital, or orders may be left at Irving's shoe store, 90 Yates street.

—The last of the series of "Practical Talks" will be given at the Y. M. C. A. rooms this evening by A. M. Muir, Esq., on the making of buildings.

—The bark Dunscore was towed to Port Townsend this afternoon by the tug Lorne. The Dunscore will load at one of the Sound ports for England.

—*Aspinall's Enamel* for renovating and beautifying everything (150 colors) No house should be without it. 50 cts. per tin. Adderley, 115 Government St.

—The newest and most fashionable stock of millinery, jackets, mantles, jerseys, etc., etc., Stevens & Jenkins, 111 Douglas st. Good dressmakers wanted.

—Ald. Harrison suggests that several lots owned by the city in James Bay be sold and the proceeds be devoted to putting the park into more satisfactory shape.

—Go to Biggers' for your choice confectionery, shipped from Frisco fresh every week. Fruits, drinks, etc., No. 59, Government street.

—Lots of agricultural implements which have been imported by recent steamers and are lying on the wharves, is indicative of the fact that farming is quite an industry on this island.

—The door of the City Hall business offices has been fitted with a new and powerful spring which closes the portal with an exceedingly vicious close if it happens to be left unguardedly open.

—Elocution and the culture of the voice. Frederic Adderley, Professor of Elocution (prize medalist, 1882) gives lessons in the above. Amateurs coached. For terms address 115 Government St.

—The handsome new offices of Cooper & Green, are almost ready for occupancy. To-morrow the carpets will be laid, and then the new firm will begin business in one of the largest and best offices in the city.

—A private rehearsal of "Eminie" was held at the residence of Mr. Charles Lombard last night, at which the leading performers attended. Great praise is due Prof. Adderley for his masterly interpretation of the opera.

—If you want a real good shine with neatness and dispatch, go to Fred J. Richards, the champion shoe black, at his new stand in Wurttele's barber shop. The best shine in the city. Open from 7 a. m. until 8 p. m.; Sundays, 7 a. m. to 12 noon. Late of San Francisco.

—There was some little misunderstanding about the price of admission to the concert at the Victoria West C. E. Mission, Thursday evening. The admission is only twenty-five cents, and a bus will leave the post office at half past seven for the accommodation of down town folks.

—The old adage that "cleanliness is next to godliness" was exemplified last month by the statistics published in the *Monthly Recorder* of the Y. M. C. A., which states that 125 members took baths; or rather that 125 baths were taken, which may mean a greater excess of cleanliness for some, than one bath a month would imply.

—The funeral of Mrs. Newton took place this morning from St. Andrew's pro-cathedral, Rt. Rev. Bishop Lemmens, assisted by Father Nicolaus officiating. The pallbearers were: J. Mason, M. P. P., Geo. Cowan, M.P.P., L. B. Nason, M.P.P., E. A. Martin, C.E., T. Cooper, N. Campbell. The husband of the deceased is in Cariboo.

—What promises to be a very fine vocal and instrumental entertainment will be given in Temperance Hall, Pandora avenue, this evening. A splendid programme of vocal and instrumental music, recitations, and a grand soliloquy of nations will be the features. The concert is under the auspices of the Ladies' Aid Society of the Calvary Baptist Church. Admission, 25 cents.

Crofter Fishermen.

Mr. Alex Begg, the Crofter agent, is still pursuing his researches in the interest of the class he represents. Mr. Begg purposes to leave in a few days for San Juan on the west coast, nearly opposite Cape Flattery, to look at the country with the object of locating a large party of Crofter fishermen at that point in the future.

The Seattle Point Line.

Contractor Conway will commence work as soon as possible and finish up the unexpended portion of the telegraph line to Seattle Point. A large force of men will be necessary to do the work within the stipulated time, the contract calling for its completion by July 1st of the present year. The Victoria telegraph office will be the terminal point of the line at this end.

Thermometer at Kellogg's.

Average temperature to-day.....57o

For Sale.

A bucket full of stilldrens' boots at 40 cents per pair, owner has no use for them. Apply to Russell, McDonald & Co., opposite the iron church, Douglas street.

Amateur Dramatics.

The Victoria West Amateur Dramatic Society will give a performance in their hall on next Saturday evening. "Better than Gold" will be placed on the boards on that occasion.

Song Books.

A pair of very powerful song books have just been turned out of Mrs. John Robertson's shop for the fine government song boat, which is at work on the Skeena River, clearing that stream from obstructions to navigation.

For the South.

The City of Pueblo sailed at eleven o'clock this morning with the following passengers for San Francisco: Mrs. A. C. Flair, Mrs. B. Levy and child, Mrs. John Patterson, A. W. Scott, S. Thomas, J. Miller, D. Kneale and G. S. Palmer.

In a Bad Fix.

The steamer Alert did not get off the ways last night as successfully as was hoped. As she was launched something gave way, and the steamer toppled over on her side, and it will take considerable work to get her upright and afloat again. No damage beyond a vexatious delay resulted.

For the North.

The steamer Barbara Boscowitz sailed last evening for northern ports with 200 tons of freight and the following passengers: J. A. Carthew, Mr. Alexander, H. V. Cameron, A. J. Hall, T. Conant, D. French, G. Atchison, W. Warren, Lieut. Paston Kar and party, H. Ashby and 12 others.

A Favored Teacher.

At the Board of School Trustees meeting last evening, one of the members pointed out that by the reports the principal of the boys' school must be a favored teacher as he had received six trustee visits during the past month, while the other teachers had received but one each. Mr. Halliday no doubt feels highly flattered at this ostentatious attention.

All About Alaska.

Messrs. Goodall, Perkins & Co., general agents of the P. C. S. S. Co., have just published a 72-page handbook of Alaska information, which will be valuable and interesting to intending excursionists to the land of the midnight sun. A complete schedule of rates and lines of railways of the steamers is published, as well as cabin plans of the vessels. In the description of a trip north, Victoria is most flatteringly spoken of as a stopping place to enjoy a few hours' run on shore.

Own your own home. Burnside Road. Only $275 for a lot adjacent to the Tramway. Bourchier, Croft & Mallette.

The Insane Asylum.

The annual report of the superintendent of the asylum for the insane was laid before the House yesterday. The total number received at the asylum during the year was 41, the number discharged 19, and the number of deaths 4. The number received at the institution exceeded last year by 12. Of the 41 patients under treatment 27 are Chinese. Nineteen were discharged from the institution during the year, 12 of whom had recovered. The cost of the institution for the year was about $30,000.

Fell Overboard.

An unpleasant experience befell Capt. Geo. Brown of the steamer Mande about 2:30 last evening. While attempting to board his steamer at the wharf he accidentally slipped and fell in the water. There was a great deal of noise existing at the time caused by trucks moving on the wharf, and his cries for assistance were therefore not heard. A man on the custom house wharf, who happened to notice the accident, gave the alarm, and Capt. Brown was found clinging to a wharf pile and fished out, though his escape from drowning was narrow.

Port Moody.

Messrs. Mowat & Sloan of Westminster, have listed a considerable amount of property in the vicinity of the salt water and it is expected that there will be an active demand for lots there this season. The old saw mill on the south side of the Bay is running with full force. The Barnet mills will be in running order during the season. Mr. Buchard's brick yard will soon be turning out the requisite for building purposes, and altogether the prospects of good times in Moody are bright and encouraging. The accommodation station built by the residents at the head of the bay is a great convenience, doing away, as it does, with the necessity for a long walk to the coal yard station for passengers from the upper town.

Methodist Church Choir Concert.

The last rehearsal for the above concert takes place to-night and a full attendance of orchestra and choir is requested. Judging from the number of tickets sold there will be a full house. Several novelties will be introdmced, while solos and duetts are promised by the Misses Turnbull, O'Neill, Humber and Russell, and Messrs. Brown and Murphy. Quartermaster-Sergeant Meiklon will give one of his humorous recitations. During the intermission Prof. Sharpe will give a quarter of an hour's organ recital. The orchestra, consisting of nine amateurs of the city, are improving rapidly and a good concert is assured. A cornet solo by Master North, the rising young Victoria cornetist, will also be a feature of the programme. Concert to take place Friday the 11th.

Corner stone Laid.

Dr. Wild laid the corner stone of the new Y. M. C. A. building at Vancouver on Monday. In doing so he made a characteristic address. He drew an illustration from the warships and big guns. Said it was a competition between the guns and the ships which should be the stronger. At one time it seemed as though the ships would win and it would be impossible to pierce their sides with the cannon ball. Then a gun is built that sends a ball crashing through the sides of an ironclad, and we have to study up the matter of building a stronger vessel. So with the safe. At one time it seems as though no burglar could break into the modern safe, but soon the burglar proves that the safe is not safe at all when he is round. The gin palaces and dens of infamy were at one time so strong and attractive that we almost despair of competing with them, and so they claim the best of our young men. But when we see such buildings as this will be going up we are encouraged, and I rejoice with you that you are going to have such a grand institution in your beautiful city. If a young man is honest in his intentions he will receive a welcome into these associations, and when I go back to Toronto and the young men ask me what I think of Vancouver, I shall say: "First rate city, and when you go there call at the Young Men's Christian Association and they will treat you well."

Dr. Wild then proceeded to turn the first sod on the lot to be used for the erection of the new building. He said he would not beg but he could dig sod, saving the action to the word, he turned over the sod in a workmanlike manner.

The new subdivision of Victoria comprises Lots 7 and 8, 37 and 38 of the Work Estate. Bouchier, Croft & Mallette are the brokers.

Seventy-five cents will buy a dozen cakes of Pendray's Oatmeal Soap. Try it.

THE WHITE MAN'S RESERVE.

Progress of the Malcolm Island Colony Scheme.

Among the arrivals in the city last night was Mr. J. B. Buchanan, of Rugby, England, who has come out in the interest of the proposed Temperance Co-Operative Commonwealth on Malcolm Island.

Although very little has been heard about the matter of late, Mr. F. Joseph Spencer, the energetic secretary, has not been idle. On the contrary, the scheme has developed so far that Messrs. Spencer and Buchanan will go north on the next trip of the steamer Boscowitz with the full complement of machinery for a sawmill. The mill which it is proposed to erect will have a capacity of 30,000 feet per day and will be supplied with band saw, planer, edger, and other appliances necessary to the manufacture of all kinds of wooden goods. The first step taken will be to erect this mill and a wharf, after which lumber will be sawed for houses, the land prepared for cultivation, and cattle and sheep placed on the island preparatory to settlement. The first contract for the mill is the manufacture of 10,000 salmon cases for the Skeena river canneries.

There are at present a number of men and their families on their way out from England for the colony. For these Mr. Spencer will endeavor to secure work in the city till such time as matters have developed sufficiently at Malcolm Island to enable them to take up their residence there. Each colonist will require to have a little means to begin with, in order to give the colony about a year to get in a fair way of making a living. Those now on their way will be followed by others later on, among whom a number of domestic servants will be brought out.

The manufacture of dogfish oil will be engaged in largely by the colony, Messrs. Dunsmuir having agreed to purchase all that it can produce. Subscriptions in furtherance of the scheme have been fairly numerous during the past few months. Mr. Spencer, the honorary secretary, has arranged with Mayor Grant to receive any help of this kind at the City Hall, and for an audit of the books after the money has been paid out. The details of the proposed commonwealth are well known to the readers of THE TIMES. The locality of Malcolm Island is about 230 miles north of Victoria. It is about 12 miles in length and 2 miles in width, and will, it is expected, support a colony of 400 families.

INDUSTRIAL NOTES.

Busy Shops of Victoria—Work Now in Hand.

Work on Spencer & Earle's new steamer is progressing rapidly. Caulkers are at work on the hull, and she will be ready for launching shortly.

The Bon Accord cannery steamer, at Clark & Watson's yard is in frame.

R. Cunningham's boat is planked, and will be launched in about five weeks.

One and one-half car loads of boiler iron was received by Messrs. Spratt & Gray last night to be used in contracts which the firm have on hand.

Muirhead & Mann are building eighteen fishing boats for Fraser River canneries.

Steam was got up and the new engine started at Sayward's mill yesterday. The main driving pulleys were turned up and some other work done. A general start will probably be made about Monday. Extensive repairs and alterations have been made since the shut down.

Dexter & Prevost's stone steamer scow, building at the Star ways is nearing completion.

Repairs to the steamer Sardonyx are nearly finished, and she will be floated soon.

The Albion Iron Works are getting out about forty tons of castings for the new North Pacific Lumber Co.'s mill at Port Moody.

A new clam shell scoop for the Nanaimo dredger is being built at the Albion. It will weight nearly three tons.

Five Belgian rock cutting machines are being constructed at the Albion for a quarry to be opened out on the Esquimalt road by Mr. Lobbe. The machines are very complicated, and cut the stone on an entirely new plan, said to be ahead of anything yet invented.

$275 buys a lot 400 yards from the street cars. on Burnside Road. Terms, 1-3 cash; balance, 6 months. Bourchier, Croft & Mallette are the brokers

TO-NIGHT

The Eagerly Anticipated Charity Ball Takes Place.

Through the closing weeks of Lent, society has been eagerly looking forward to the Charity Ball, and at last the eventful evening has arrived. Not since the grand entertainment given to the Governor-General, have the Assembly Rooms been so beautifully decorated as they are for the ball to-night.

The walls are effectively draped with large quantities of flags and bunting, kindly loaned by Mr. Innes of the Royal Navy Yard, while depending from the ceiling, all around the walls of the great ball room, are graceful loops of evergreens, which material has also been largely employed in perfecting the flag decorations and panels between the windows. Mrs. Young had charge of the decorations, and to her good taste and the indefatigable efforts of the ladies who assisted her, are due their brilliant effect, now that they are completed.

At one side and in the centre of the hall an elevated stand has been erected for the orchestra. This has also been tastefully decorated, and the location is so admirable that the music can be distinctly heard in all parts of the room. The entire building has been thoroughly cleaned, and no pains spared to make every guest happy.

The finishing touches have been made to the supper room, the great tables are covered with snowy linen, they sparkle with cut glass and silver, while the room is redolent with the odor of the numerous beautiful flowers which ornament the heavily laden boards.

Contributions of all sorts have been most liberal, and the prospects are that the ladies will net a good round sum for the hospital fund. Extravagant reports as to the number of tickets sold have been going the rounds, some asserting that 400 had been taken. While Victoria may have a very exclusive, select "400," as is the case in some large cities, still only about half that number have taken tickets; but this number, with their ladies, will make one of the largest gatherings ever held at Assembly Hall.

Sealing and Behring Sea.

A gentleman heavily interested in the sealing industry says the sealing catch so far this season is behind the average owing to bad weather. The present intention of owners of sealing schooners is to send their vessels to Behring Sea. This plan may be altered, however, by any authentic information received from Washington regarding the Behring Sea dispute. In the meantime, anything emanating from Ottawa through American channels in regard to the dispute, is discredited in toto.

Why workingmen should buy a lot in the new subdivision on Burnside Road. 1st. They are cheap---$275. 2nd. They are easy of access---100 yards from tramway. 3rd, Location very desirable---high ground and healthy. 4th. Terms are easy---1-3 down, balance 6 months 5th. The number of these lots is limited---everybody can't get one.

PARK IMPROVEMENTS.

To the Editor of The Times:

Sir,—As one of the progressives, I am glad Alderman Barrison has found a way in which to finish the park improvement.

RATEPAYER.

THE WESTSIDE,

GOVERNMENT STREET, VICTORIA, B. C.

We believe Truth is the Corner Stone

To day of permanently profitable advertising. Whatever statements are made must be backed up by merit.

It is useless to say we have goods at such and such a price unless we really have them.

It is no good to say they are cheap unless we are sure such is the fact.

The experience gained during a long period in the Dry Goods business, together with ample facilities, enables us to sell first-class goods as low, if not lower, than any other house (we make no exception whatever).

We are convinced that our stock for the Spring exceeds any heretofore offered, and, confident of our ability to give satisfaction, we respectfully solicit your patronage

J. HUTCHESON & CO.

THE WESTSIDE.

CHALLES, PERCALLES, AND CHAMBREYS, IN GREAT VARIETY,

With colored Embroidery to match.

Mourning Materials & Crapes

A SPECIALTY.

Our Spring Opening.

The time has come when you must think about Spring wear, and we want you to connect these thoughts with Cameron and Ames. Our preparations for Spring business have been made on a very extensive scale with a view to offering buyers the utmost latitude of choice in styles and prices. We are not alone to submit the stock which represents our taste and judgment to the critical test of public opinion in our Spring Opening, and hope to hear your voice in the general verdict. You will find our stock adequately representative of the best the market affords, both in materials and styles, and we guarantee our prices to be as low in every case as the quality of our goods will warrant. Price must always be considered in relation to quality, and the finishest of quality is actual wear. We are confident that the test of wear will prove the actual worth of the goods we offer. Before you make your Spring Purchases we respectfully ask an examination of our goods. We shall not importune any one to buy, feeling that if our stock will not make buyers, nothing we can say will win on occasion. A half hour spent in looking over our assortment of goods will give you a fair idea of the styles that will be popular in this Spring season, and we can only hope it will be as much pleasure for you to see as for us to show our goods.

CAMERON,

55 Johnson Street.

Men's, Youths' and Boys' Clothing, etc.

Direct from the Old Country.

-: ASPINALL'S ENAMEL :-

COLORS EXQUISITE.

—SURFACE LIKE PORCELAIN.

Highest Prize Medal. Highest Award—Paris and London.

Made in 150 Shades, for beautifying all surfaces of Wicker, Wood, Metal, Earthenware, China, Glass, etc. Even an old ginger jar can be made into a lovely ornament by the most inexperienced person.

"I lately saw a very shabby set of bleached painted wood bedroom furniture turned into a handsome suite of pale blue with Aspinall Enamel."

Aspinall's Ebonico (registered) for Bicycles, is the best ever invented.

Aspinall's Bath Enamel is ready for use, and can be supplied by anybody. It stands boiling water, and is made in White, Rose-de-Nil, Ivory, Cream, Wash Blue and Stone.

Can be had in single tins or larger quantities from the Sole Agent for British Columbia.—

Frederick Adderley

115, GOVERNMENT ST., VICTORIA.

Orders taken by LANGLEY & CO. march9-1w

March

April

May

Are the best months in which to purify your blood. During the winter months the blood becomes thin and impure, the body becomes weak and tired, the appetite may be lost, and just now the system craves the aid of a reliable medicine. Langley's Sarsaparilla is peculiarly adapted to purify and enrich the blood, to create a good appetite and to overcome that tired feeling. It increases in popularity every year.

Langley's Sarsaparilla

Is the ideal spring medicine. It tones the kidneys and liver, tones the digestive organs, creates an appetite, purifies and vitalizes the impure and sluggish blood, cures the headache and overcomes all the prostrating effects of that tired feeling.

The Spring Medicine

At the coming of spring the blood should be purified, as impurities which have been accumulating for months, or even years, are liable to manifest themselves and seriously affect the health. Langley's Sarsaparilla is undoubtedly the best blood purifier. It expels every taint of impurity, drives out scrofulous humors and germs of disease and gives to the blood the quality and tone essential to good health.
